

SHADOW Graffiti Remover

SMART SHADOW REMOVER is an easy to use liquid to remove graffiti shadows or ghosting & pigments on porous & non-porous surfaces which has been specifically formulated for everyday use on common exterior surfaces.

Shadow specialises in removing graffiti shadows from these surfaces:

- Brick
- Concrete
- Glass
- Wood
- And More

Safety Instructions - When starting a graffiti removal job always wear safety protection before handling any of the graffiti removing products. Safety goggles & chemical resistant gloves are required before using Shadow Graffiti Remover. Wearing long sleeves & long pants are recommended to protect the skin. Always have access to water when working with Shadow Graffiti Remover. If Shadow Graffiti Remover does get on your skin, wash the skin with water to remove the product.

Before using Shadow Graffiti Remover check the surface to see how clean it is. The surface does not have to be perfectly clean to start, but if the surface has substantial dirt on it, the dirt may impede the penetration process and should be power washed off before removing the graffiti.

NOTE: ALWAYS TEST PRODUCT ON A SMALL HIDDEN AREA PRIOR TO FULL APPLICATION.

A 2200 PSI pressure washer and cold water are effective, but in cooler temperatures, hot water and higher PSI pressure maybe more effective.

Equipment Needed for Removal of Graffiti:

1. Shadow Graffiti Remover as concentrate
2. Safety Equipment (chemical resistant gloves, goggles, etc.)
3. Nylon Brush (Non-Hair Loss and not natural bristles) or a Stiff Broom (if needed for agitation) or a long handled roller with quality roller cover
4. Polypropylene Container for dispensing Elite
5. Pressure Washer

Smart Graffiti Ireland. Apple View, Trim Road, Kildalkey, Co. Meath, C15 W702, Ireland

Application Method for an Unpainted Surface:

1. Put your chemical resistant gloves and goggles on
2. Shake the product to activate it
3. Pour needed amount of product into container
4. Grab the roller/paint brush and dip it into the container
5. Roll the product on the graffiti tag with the roller from the bottom up
6. Put the roller back into the polypropylene container
7. Start the pressure washer 90 seconds after product has been on the surface
8. Spray the product off of the surface
9. Turn off the pressure washer
10. Repeat steps 3 through 9 if graffiti is still showing

At the end of the job, wash down all safety equipment and tools used in the removal process to get all of the Shadow Graffiti Remover off for reuse on the next job.

Results and Benefits:

The main differences between **Shadow Graffiti Remover** and other graffiti removal methods include: dramatically reducing the time it takes to remove the graffiti, one application's effectiveness in removing 99% of the typical graffiti and no damage to the original underlying surface! Shadow Graffiti Remover gets all of the graffiti off the surface within minutes while other products can take multiple applications and hours of time. Shadow Graffiti Remover enables removal in minutes on all the typical **exterior surfaces which saves our customers significant time and labour. With less time and labour spent on each individual graffiti removal job, our customers can get 2, 3 even 4 times as many graffiti removal jobs accomplished per shift. Plus, you will not be spending labour or buying paint to paint over graffiti anymore, nor repairing or repainting surface damage from inappropriate graffiti removal products.**

Shadow Graffiti Remover is most effective when used in a "wet surface" removal process. By "wet surface process" we are referring to the practice of starting with a water wetted surface and keeping the work surface wet at all times as Shadow Graffiti Remover is applied, loosens the graffiti and then power washed off with the graffiti

Coverage:

Varies dependent upon type of surface material 0.2 -0.5 litre/m²
